

SALON SAFETY

We've made a few changes to the way we operate in these unprecedented times to keep our staff and clients safe.

Remember to implement the following safety precautions when in the salon:

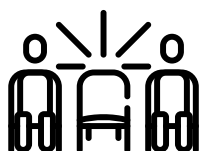

Clients should be asked to attend their appointments alone where possible

Encourage clients to arrive on time for their scheduled appointment

Clients should be encouraged to wash/sanitise their hands when entering the salon

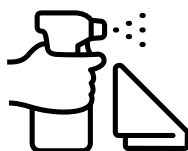

Ensure social distancing is maintained in waiting areas whilst clients wait for their appointments

A clear visor should be worn which covers the face, providing a barrier between wearer & client

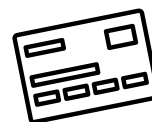

Workspaces & tools should be cleaned & sanitised between each client

Ensure there is enough time in between clients to clean

Cover coughs & sneezes

Request contactless or card payments where available
