1 DAY COURSE

9.30am - 5pm

## COURSE BRIEF:

Hii Pen is a non-invasive tool that delivers Hyaluronic Acid filler into the skin by pressure, not via a hypodermic needle. Needle-free devices have been used in vaccination programmes for decades, and have been designed to deliver injections without the discomfort and anxiety of a hypodermic needle (approx 20% of the population has a fear of needles/injections). This technology has now been developed as an aesthetics treatment. Hii Pen produces just enough pressure to launch a Hyaluronic Acid mixture into the skin, in a more comfortable and stress-free way than conventional hypodermic needle procedures.

## SKILL LEVEL:

Students must hold at least an NVQ Level 3 in Beauty (or equivalent).
