# PULPRIOT SEMI-PERMANENT SWATCH CHART

# SEMI-PERMANENT BEST PRACTICES

## STEP 1: PICK YOUR COLOUR

Vibrant and bold, all of our semis can be used on their own, intermixed to create your ideal shade, or pastelized by mixing them with our CLEAR **Semi-Permanent Colour**.

#### **STEP 2: FIND YOUR CANVAS**

This swatch chart will help you see how colour looks on each level of hair. Use it to select a semi shade, or when comparing to the level canvas you're applying colour to.

## **STEP 3: START PAINTING**

Apply **Semi-Permanent Colour** to clean, dry hair. Leave on for 25-40 min at room temperature. No developer needed, use straight out of the tube.

#### STEP 4: RESET

STEP 5: REPEAT!

Change up your colours with ease. Blank Canvas is the most gentle and effective way to remove Pulp Riot Semi-Permanent Colour.
